

Month By Month Poster

In your group create a poster that shows both baby and mom's development during your month of pregnancy

On you poster you will need to include

1) What I presented on in class

PLUS

2) You will need to go further in depth with your month of pregnancy using the internet and or books (ask Ms. Martens for these books).

- Providing visuals for length and/or weight of baby during your month
- More symptoms/developments for mom
- Tips for mom in this stage or month of pregnancy
- More developments for baby

The sites listed below has a lot of good information

↓
<http://www.plannedparenthood.org/health-topics/pregnancy/stages-pregnancy-23953.htm>

or

http://www.babies.sutterhealth.org/during/preg_monthlyguide.html

YOUR GROUPS POSTER SHOULD BE CREATIVE!!!! (If I would be making one myself I might do a side profile of mom and have an image of baby inside and list info around the baby)

AND MUST INCLUDE PICTURES

*You can use graphics from the internet and any of the art materials I have in the room or in the storage closet, just let me know what you need (I do have poster board)

You will informally present these and they will be displayed in the classroom, we will make a TIMELINE out of all of the posters to depict full term pregnancy.
